

**April 5, 2013**

**Statewide Star Party: Spring Into Spring**  
949 Contentnea Lane, Grifton NC 28530

*Carolina Skies  
Astronomy Club*

*We See Stars*

[www.atimeforscience.org](http://www.atimeforscience.org)

Join with **A Time For Science** Nature and Science Learning Center and the *Carolina Skies Astronomy Club* **around 7:30 pm to view the night sky** in spring-time. A variety of telescopes will be available for viewing and later on a guided tour of the spring constellations (including a look at the **"Easter Bunny in the Sky"**) will be presented. **Come early at 6:00 pm** to Stroll the Solar System (a scale model to size and distance). Experience a bit of space history when you touch the **nose wheel tire from the Shuttle Endeavour**. **NOTE: In the event of cloudy skies, an indoor program will present you with opportunities to become a Citizen Scientist to assist investigators in a variety of astronomy research projects.**

### **Stroll the Solar System**

Arrive by 6:00 pm and, using your own "Pace" Ship, start at the 8-in diameter Sun and walk the 6/10 of a mile to Pluto and visualize the planets along the way in exact proportional distance and size to the model Sun.

Please give early notice on-line if you will be attending this activity

### **A TOUCH OF SPACE**

SEE, TOUCH, EXPLORE AND EXAMINE THE NOSE-WHEEL TIRE FROM THE SPACE SHUTTLE ENDEAVOUR THAT OUR RECENT VISITOR, MARK KELLY, PILOTED ON ITS LAST VOYAGE INTO SPACE.

THIS HISTORIC ITEM IS ON LOAN FROM NASA AND THE EASTERN NC REGIONAL SCIENCE CENTER, INC. (DBA GO-SCIENCE).

To be part of the 21st century we must make **A TIME FOR SCIENCE** now.
