"Lookiting" at the Birds

www.atimeforscience.org

Join with ***A Time For Science*** Nature and Science Learning Center at the Sylvan Heights Waterfowl Park in Scotland Neck as we spend the day "Lookiting" at (observing) the many colors and hues that make our fine feathered friends such objects of beauty. Increase the fun of your tour of the **Sylvan Heights Park** as you look for colored feathers that match the colors of the swatches you select from the "color grab bag." Keep a record of your finds and turn them in at the end of your tour for a Certificate of Participation. Then check in later on the ***A Time For Science*** website to see the results of the survey.

To be part of the 21st century we must make **A TIME FOR SCIENCE** now.
