

**Celebrate Earth Day with  
A Time For Science  
Nature and Science Learning Center**

**Scheduled activities throughout the day include:**

**6:00 a.m. Bird Watching**

Serious Bird Watchers, this is YOUR time to get out and do what you love to do!

**8:30 a.m. Bird Watching for Families**

Families, come on out and see how many different birds you can find on our beautiful trails!

**9:15 a.m. Frog Walk**

Enjoy a guided tour while discovering and learning about all of the different species of frog living here in beautiful North Carolina!

**11:00 a.m. “Snacking from the Garden”**

Learn how to make a variety of snacks from the garden. Focus on eating local and eating in season. Did we mention that you get to taste also?!

**2:30 p.m. “Learn how to improve your soil” Featuring “Biochar”**

Learn “hands on” how to improve the quality of the soil in your garden.

**3:00 p.m. Meditation Walk**

**4:00 p.m. Guided tour through the solar system**

Take a walk through the built-to-scale model of the solar system. Learn about the different planets and where they are in relation to one another.

**Activities available at leisure throughout the day:**

- Build a Worm Hotel with Nancy Bray (bring a 2 liter bottle and one small water bottle...we'll provide soil and worms)
- “Green Fire” The life and philosophy of Aldo Leopold showings.
- Picnicking
- Hiking
- Self guided tour through the solar system
- *\*Kayaking on the pond available for additional fee*
