

The writings of Richard Louv have served as a tremendous influence on the very existence of *A Time for Science* Nature and Science Learning Center. Consequently, we at ATFS are extremely proud to be among the co-sponsors with the NCCB for his appearance at ECU for the many events surrounding Earth Day Celebrations.

You can register for this free event at either website
www.atimeforscience.org
www.go-science.org

In keeping with his philosophy and goals and as a follow-up to this talk,

a family-oriented, outdoor, hands-on event will follow on Saturday, April 16th from 10am-2pm at River Park North.

Parking will be available across the street from the park at Greenville Utilities. The event will have interactive exhibits focusing on environmental activities and natural history activities.

Registration for this free event is also available at either website.
